Thetford Academy Redevelopment Proposals

Introduction
This presentation is prepared in advance of a submission of a planning application by Balfour Beatty on behalf of Norfolk County Council.

The former Rosemary Musker High School site has been identified as the location for the new Thetford Academy. The aim is to develop a 3250 pupil school including a sixth form facility.

The Academy’s vision is to provide the environment and stimulus for high quality education that will underpin the regeneration of Thetford.

The proposal will create:
- a high quality environment that will provide a greater range of opportunities for the whole community throughout the day and year.
- an exciting new civic frontage on Croxton Road.
- safe, accessible routes for pedestrians, cyclists and drivers and will help to secure the use of the site for the Academy and community.

The proposal will include hard play areas and improved arrangement of sports pitches for academy and community use.

The design will encourage community use of the site, secure use of the school grounds in the evenings and on weekends and an efficient use of the overall site to realise a successful shared use for the Academy and the whole community.

We welcome your comments!
