Dear Parent or Carer

The safety of our students is always our concern. We have been contacted by the Thetford Safer Neighbourhood Teams about the safety of students at the beginning and end of each school day when parents drop off and collect students by car. This leads to parking issues around the school which not only restricts access for everyone but can be dangerous for pedestrians.

Unless absolutely necessary students should walk to and from school. If there is an urgent reason for collection or drop off by car, parents should not drive onto the school site but park in the car park on the opposite side of the road (North Campus) or on the street (South Campus), making sure that driveways and entrances to the school or local buildings are not blocked. Parents or carers are then welcome to come onto the school site by foot to meet their children.

Parent and carers will, of course, be aware of the need for extra care when driving at this time, when a large number of young people will be crowding pavements and crossing the road.

Thank you for your care and consideration in managing these potentially congested and difficult situations.

Yours sincerely

C Spillane (Mrs)
Vice Principal
